

Dear Valued Friends and Patients,

My husband has been in dentistry for 14 years and the practitioner at Summit Dental / Jacob Laudie Dental for 12 years. He dearly loved his profession and the unique position it put him in to know, care for and give service to you, his beloved patients. As you may know, Dr. Laudie suddenly had health concerns in the spring that kept him from the office for treatments. I am so impressed with the dedication and adaptability of our amazing staff! I am thankful to all the wonderful dentists that have continued to give quality care and for your trust in his absence. Dr. Laudie has an aggressive brain tumor that has taken his sight and recall away. This is sad beyond measure and one of the ways we cope is to care for the office he cared for.

I write this letter to inform you of our confidence in finding a dentist that is a great match to Dr. Laudie's kindness and capability. Dr. Brian Schowengerdt, is our choice for many reasons. He has the vision of the office and will strive for your experience to be enjoyable and outstanding in every way. It was difficult to find a dentist that is not intimidated by the types of procedures that Dr. Laudie did, as many dentists refer out beyond the basics. Dr. Schowengerdt enjoys doing a variety of procedures, from the basics to oral surgery, dental implants, root canals and pediatrics. He is a member of the American Dental Association, Fifth District Dental Society, and Kansas City Dental Implant Club, and takes extensive continuing education to best serve his patients. While his clinical skills were an important consideration in choosing him to assume the practice, his kindness and heart for serving others reflects the type of care that Dr. Laudie always strived to provide.

We appreciate your trust in us for your dental care and for the many years you have given us your smile!

SMILE ON!

Sincerely, Jennifer Laudie and dental team

Dr. Jacob Laudie
