

SMILING KIDS PEDIATRIC DENTISTRY

A Lifetime of Smiles Begins Right Here

Husband and wife Pediatric Dental Specialists, Dr. Sam Bullard and Dr. Swati Singh are honored to both be selected as top dentists by their peers for the third consecutive year. Their two pediatric dental offices, Children's Dentistry of Indianapolis and Noblesville Kids Dentistry now have a new name: Smiling Kids Pediatric Dentistry.

We're not just a family owned business, we're a family business! We're parents, just like you. We appreciate the important decisions you're making and can assure you that we take what we've learned as professionals and apply it to our own family as well as yours. We're in this together, and we look forward to being your child's dentists for years to come.

Your child will never outgrow his or her smile. Establishing good early dental practices will have an impact that lasts a lifetime.

That very first tooth, gummy smiles, and those gap-toothed grins turn into the signature smiles that will light up holiday photos, school pictures, and even wedding and family portraits. More importantly, proper early dental care ensures not just a beautiful smile, but contributes to your child's overall health, development and well being.

Your first visit with us is the most important step in introducing you and your family to the "dental home" and its life-long importance. As always, you don't need a doctor referral to see us and we accept all insurance plans. So Smiling Kids isn't just our name, it's our mission. And if we can bring some smiles to you, that's even better.

THREE YEAR WINNER

**Sam Bullard, DDS
Swati Singh, DDS**
